

UML Class Diagrams

Exercise 1 — Five Real-World Class Diagrams

UML Class Diagram — Smartphone:

Smartphone.java
- String brand - int batteryLevel - int storageCapacity - double screenSize - boolean isLocked
+ Smartphone(); + makeCall(String phoneNumber); + takePhoto(); + chargeBattery(); + installApp(String appName); + showinfo();

UML Class Diagram — GameController:

GameController.java
- String model - String color - int batteryPercentage - boolean isConnected - int buttonCount
+ GameController(); + connectToConsole(); + vibrate(int intensity); + pressButton(String buttonName); + powerOn(); + showinfo();

UML Class Diagram — DigitalCamera:

DigitalCamera.java
- String brand - double resolutionMegapixels - int zoomLevel - double memoryCardSpace - boolean flashEnabled
+ DigitalCamera(); + captureImage(); + recordVideo(); + adjustZoom(int level); + toggleFlash(); + showinfo();

UML Class Diagram — Laptop:

Laptop.java
- String processor - int ramSize - String operatingSystem - boolean PowerOn - int brightnessLevel
+ Laptop(); + bootUp(); + openProgram(String programName); + shutdown(); + connectWifi(String networkName); + showinfo();

UML Class Diagram — Book:

Book.java
- String title - String author - int totalPages - int currentPage
+ Book(); + openBook(); + turnPage(); + bookmarkPage(int pageNo); + closeBook(); + showinfo();
